

INSTRUCTIONS FOR PERFORMING CREMATION INTERMENTS

The location for the interment shall be shall be marked by Village personnel.

Opening of the plot shall be done in one of two (2) ways:

1. Managed by the Village using a contractor of choice
2. By the deceased's family or relation having authority

Either method shall be in accordance with the instructions on page 2.

The village shall provide:

- backfill sand
- metal marker
- black soil topping

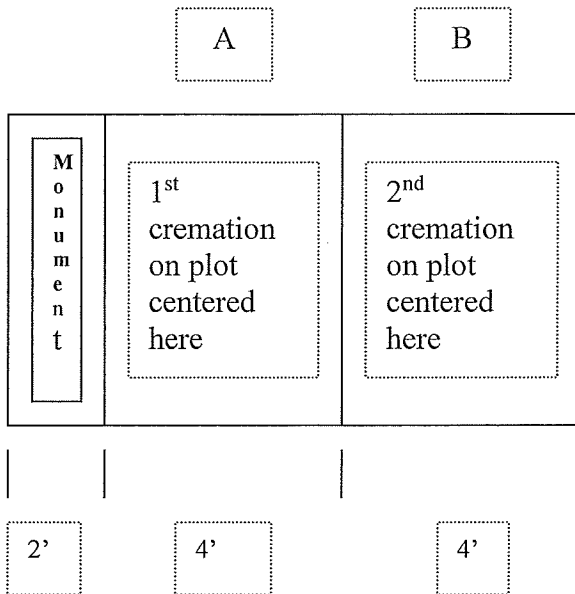

Responsibilities for those opening the cremation plot:

- clean-up after opening
- If hole is to remain open mark it and protect public from hazard

Responsibilities for those performing the interment:

- perform interment as per instructions on page 2
- perform any additional clean-up required

Location

Plot is 5'X10'

Either section A or B could contain an urn vault which could then contain two (2) cremations. This would then require hand exhumation for the addition of the second urn.
